

Case Statement

About Us

The Iowa Immigration Education Coalition educates the public about immigrants, immigration issues and their impact on Iowa's economy and quality of life. The Iowa Immigration Education Coalition works to do this by informing Iowans through public forums, outreach, and opinion-leader presentations, utilizing research-based, user-friendly materials, publications and resources in print as well as online.

The Need

It is critical that Iowans receive balanced and fact based information on immigration. Policymakers, elected officials, the general public and the media have a tremendous need for research-based information and educational programs to inform decision-making and policy development regarding immigration issues in Iowa. The Iowa Immigration Education Coalition provides objective, non-partisan information about immigration and its impact on the state of Iowa through education, research, and publications.

The Challenge

The Iowa Immigration Education Coalition needs support to educate Iowans. Funds will be used to create a model education initiative and a website compiling user-friendly, Iowa-based original and secondary research and data. The Coalition reaches out across Iowa through this initiative to provide balanced information on immigration.

Support Iowa Immigration Education Coalition

Your investment in the Iowa Immigration Education Coalition will assist in providing fact-based education to inform common sense policy solutions that enhance Iowa's economy and quality of life. 100% of your donation is tax deductible as a charitable contribution.
